

Autumn 1 Whole School Family Learning Project

Focus: Personal Development

Being me in my world: We are so lucky to get to know our children while they are in school but we know their world is bigger than Woodfield.

Your challenge this half term is to create something that gives us a glimpse of your life outside of school. You could draw a picture, make a photo album, make a model or even write a book about the things that are important to you and your family and the things you enjoy doing outside of school.

Autumn 1 Whole School Family Learning Project

Focus: Personal Development

Please return your completed project, making sure it has your name and class clearly labelled on it, to the school office on Monday 17th October.

We will then create a showcase of all your fantastic learning in the hall to share with others. We will be giving out some fantastic prizes for the most creative entries.
