**English - Reading Comprehension**

Use your inference skills to answer the following questions on this picture called 'Let's Leave...'. See the second page for a larger image.

Why do you think the picture is called 'Let's leave...'?  
Where do the bubbles take you?  
Do they always take you to the same place?  
Can you control where the bubbles take you?  
What does it feel like being inside the bubble?  
What does the girl have in her suitcase?  
Do many other people know about the magic bubbles?  
Will she ever run out of the precious bubble-making liquid?  
How did the girl find out the bubbles were magical?

**Maths - Fractions of Amounts**

Here is a picnic that Susan and Michael are going to share equally.  
Can you write down what each of them will have, if all the items in the picnic are share equally between the two of them.

**Challenge:** What would each person get if two more children joined the picnic and the items were shared equally?

**Topic - Art**

Pointillism is a style of Art where tiny dots of colour are applied to a canvas. The patterns that form with the tiny dots build up to create an image. The fact that the dots are so close together cause the colours to appear blended. It was created by French artist Georges Seurat in the 1880s.

Choose a small object in your house, it could be a plant, or a piece of fruit and re-create it using pointillism. You might choose to draw the outline of the object first, then use tiny dots to add colour to your image.

**Reading**

Please read at home at least 3 times each week.

**Spelling**

Please practise our Deadly Dozen words: would, could, should, there, their, they're

**Times Tables**

Make sure you access your Times Table Rock Stars account.
Why do you think the picture is called ‘Let’s leave...’?

Where do the bubbles take you?

Do they always take you to the same place?

Can you control where the bubbles take you?

What does it feel like being inside the bubble?

What does the girl have in her suitcase?

Do many other people know about the magic bubbles?

Will she ever run out of the precious bubble-making liquid?

How did the girl find out the bubbles were magical?
