We have really loved seeing you all sharing your family learning activities on the VLE. Here is another set for you to have a go at. This week’s theme is The Zoo

Don’t forget to let us know how you get on!

**This week’s family challenges:**

**Animal Print**- Animals come in many sizes, shapes, colours and patterns. Today we would like you to get creative with animal print. Divide a piece of paper into little sections by either folding or drawing lines. Try to fill each space on the paper with different patterns that look like animal print. You could use just a pencil or pen for a simple version or get colourful with paint, felt tips or coloured pencils.

![Animal Print Examples]

**Pebble pets**- During lockdown lots of us have been decorating pebbles to leave out for others to see as a way to cheer people up. This week we thought we could have a go at making pebble pets to leave out. Choose a stone, choose your favourite animal and get busy! You never know who might find it.

**Chester Zoo Virtual Tour**- As Chester Zoo has been closed they have been creating virtual tours for people to enjoy at home. Why not take a look and see which animals you can learn about?

**DIY zoo**- Why not have a go at creating your own zoo? It can be a small one for your toys or a bigger one for your family to go on a tour of. Get creative making masks, tickets, maps and even running your own tours like Chester Zoo or The Yorkshire Wildlife Park.

**Get Moving**- This week we thought we would go for a spot of yoga and take on the cosmic yoga Lion challenge. Why not have a go?
