English
Write a persuasive letter
Write to your Headteacher or local councillor and ask them to support walking, cycling and scooting in your area. Can you explain to them why road safety and active travel are so important for young people and the environment?

Maths
Traffic Counts
Monitor traffic from your window for the next week or month. Count the number of people walking, scooting, cycling and the number of cars, vans and lorries. Can you draw a bar chart or graph and describe any changes over time?

Topic - Science
When something changes in the environment it can cause changes in the habitat of an animal. I want you to look at the changes in the habitat of a Polar bear.

What is changing?

What is causing it to change?

What is that going to do to the Polar bear?

What other effects will there be?

If you have any more questions, then include them and find out the answers.

Reading
Please read at home at least 3 times each week.

Spelling
Deceive, deny, deposit, desert

Times Tables
Make sure you access you Times Table Rock Stars account.

To Year 4,
Bonjour! It is now coming to the last week of April, we don’t seem to have had much rain yet have we? Perhaps that is what is going to happen this week. (As I have been typing this it has just started raining spooky…) We have slightly changed the home learning so don’t worry if it looks different. Stay safe, be kind.
